50X1-HUM

1. Comment. These shipments were previously observed [redacted] The train which went from Haldensleben to Jueterbog on 22 August, had [redacted] the trains which left Jueterbog on 23 August were unloaded in Wolmirstedt rather than Haldensleben.

50X1-HUM

2. Comment. [redacted] the departure from Eisenach of two artillery shipments, presumably of the 57th Gds Mtz Rifle Div; and the departure from the Mechterstedt railroad station of one shipment. The three shipments were bound for Altengrabow. It is undetermined which information is correct. However, it appears rather probable that the elements which left from Ohrdruf and Eisenach for Altengrabow on 23 August, returned to their units on 29 and 31 August.

50X1-HUM

The train which went to Altenburg [redacted] may have carried elements of the 43d Army Arty Brig, which is the only unit from Altenburg which was reported to conduct summer training at the training grounds since late April. The elements which transferred to Altengrabow from Koenigsbrueck cannot yet be identified.

50X1-HUM

3. Comment. [redacted] trains [redacted] went from Magdeburg to Fassewalk. In connection with the command post exercises west of Stettin, which started about 28 August, this information appears more credible. Train [redacted] is reported for the first time. It cannot be determined, whether the dispatching and receiving stations mentioned are correct.

50X1-HUM

4. Comment. The elements of the 207th Mtz Rifle Div, which had arrived in Jaevenitz on 27 August, presumably returned to Quedlinburg on 30 August.

50X1-HUM

5. Comment. Probably a shipment of a unit of the 13th AAA Div.

6. Comment. Shipments of elements of a ground unit of a fighter regiment which transferred to the Puetnitz airfield from Welzow airfield near Cottbus after 30 August.

7. Comment. Possibly the shipment with tanks and armored scout cars which [redacted] passed through Muellrose on 2 September, proceeding southeast [redacted]
